

localsearch

Erfolg für KMU in der digitalen Welt

localsearch is the leading marketing and advertising partner for Swiss SME.
We make our customers successful in the digital world.

Within our department Products & Platforms we are looking for new colleagues:

Data Engineer

We are

Value-providers, data-informed-engineers, product-developers, service-providers, growth-enablers, passionate **and offer**

- a broad range of challenges – on different days you will wear the hat of architect, developer, and DevOps engineer for the data platform
- opportunities to develop a state-of-the-art data platform and build the basis for a genuinely data driven organization
- you being part of a core team spanning the range from system integration and data collection to actionable business insights
- a close collaboration with data scientist, developers, business analysts, and data integration engineers

You are

Data-Ninja, Team Player, Cloud-Geek, Pipeline-Automator, Problem-Solver and you **and you impress us with**

- a MSc/PhD in physics, computer science, electrical engineering or similar quantitative field or equivalent professional experience
- your ability to independently create structure in the data landscape, solve problems, and continuously improve the quality and performance of the data platform
- experience with Cloud Data Platforms (GCP/AWS) and several of the relevant technologies (Apache Airflow, Beam, Python, Java, Docker, Kubernetes, SQL, MLflow)
- experience with designing, creating, and maintaining a complete data flow in an automated cloud environment – and the understanding of the interactions with GDPR and data lineage
- professional proficiency in English; German is a plus

Important: We are only able to consider applicants with a valid permit to reside and work in Switzerland or citizens of EU-27.

Direct applications are given priority.

We will be happy to answer your questions via our WhatsApp chat +41 79 358 35 76.

We, Sylvia Ramona Bertele and Kurt Baarman,, look forward to receiving your online application!
